

IN WORLD OF SPORT

HOWARD DEFEATS VIRGINIANS 26 TO 0

LINCOLN BLANK MORGAN COLLEGE 63 TO 0.

Chester, Pa., Nov. 3.—Last Saturday, the Lincoln University football team played Morgan College and won by the overwhelming score of 63 to 0. The team, a good practice in this game, and it is beginning to run off smoothly the various plays devised by Coach Shelburne. The men are all anxious about the trip to Wilberforce and this inter-sectional combat is likely to prove interesting.

LOCAL BASE BALL FRANCHISE MAY BE CONTROLLED BY AN ASSOCIATION.

According to reports in local base ball circles there may be a decided change in local base ball franchises. Several Dallas-business men were negotiating some weeks ago with the President some weeks ago with the as to term on the franchise, but by some means the transaction fell through.

HOWARD DEFEATS VIRGINIANS 26 TO 0.

Washington, D. C., Nov. 3.—Howard University overwhelmed the eleven of the Virginia Normal and Industrial Institute, 26 to 0, in the foot ball game on Howard athletic field, Saturday, November 2nd. The Virginians were big, husky players who probably outweighed the Howard boys slightly but their expected offensive did not materialize.

Neither team was able to score in the first quarter. Both showed powerful offensive work, and although the Virginians line appeared quite strong on the attack its drive was not quite strong enough. When the "Blue and White" finally broke through the visitors' defenses, they smothered them under the two touch downs which were credited to them so quickly in the second quarter that the Virginia boys were fairly amazed. The further the game went the more pronounced became Howard's superiority.

During practically the entire second half, Howard kept the ball in its possession and the Virginians held well when their goal was threatened. Four times the visitors held the "Blue and White" off after they had pushed them up to their 5 yard line. Once when the Virginians held Howard for downs on their 5 yard line and upon the attempt to kick out, Howard blocked the ball and recovered it for a touch down. Howard broke through three times and blocked

Texas League pennant, but suffered a financial loss and steps are being taken now to avoid repetition. The mode of operation by the football element will be determined by a base ball and amusement Association, which shall serve as the base of the club's victory.

LINCOLN AND HOWARD TUNING UP.

Washington, D. C., Nov. 3.—While Lincoln is calling upon Shelburne, Paul Robeson, W. C. Matthews, and Wheaton, Howard is confining her training to her old reliable coach of last year, "Doc" Morrison, assisted by "Joe" Trigg. Howardites feel that after all, it is the men who must win the game. All of her time and contention is being devoted to perfecting team work. Howardites say: "Team work is the watchword. That and nothing more."

the Virginians kick out.

For the visitors, the work of Captain Spratley, Right half back, was good, and the punting of Full Back Dykes was a conspicuous feature. Howard had the forward passing game down fine, and made two touch downs as a direct result of two tosses, one of which netted about 25 yards. For the third time this season, the Howard Machine emerged not only victorious but unscored upon.

The Line Up:
Howard Virginia Normal
Nurse R. E. W. A. Lee
Brooks R. T. Davis
Melton R. G. W. T. Davis

NEGRO HISTORICAL ASSOCIATION TO MEET.

To Be a Record-Breaking Meeting.

Washington, D. C., Nov. 4.—On Monday and Tuesday the 14th and 15th of November, the Association for the Study of Negro History and Life will meet in annual session at Lynchburg, Va. The day sessions will be held at the Virginia Seminary and College and the evening sessions at the Court Street Church. Speakers of national standing will address the meeting. Teachers and students having an intelligent interest in the Negro will attend this important convocation.

The discussions to be taken up will center largely around the Negro in the present crisis in the light of historical and sociological analysis. Such topics as the development of the race from within, economic self-sufficiency, and the uplift of those far down will figure conspicuously in this program. Among the speakers who will participate are Professor John R. Hawkins, Financial Secretary of the African Methodist Episcopal Church, Professor Charles H. Wesley of Washington, D. C., Channing H. Tobias, International Secretary of the Young Men's Christian Association, Victor R. Daly, Business Manager of the Journal of Negro History, and L. Jackson, of the Chicago Defender staff, C. G. Woodson, Director of the Association, and James H. Dillard, Director of the John F. Slater Fund.

The Association is a national movement with headquarters in Washington, where is edited the Journal of Negro History through which the organization endeavors to popularize the study of Negro life and history. Members organized as clubs gratuitously receive from the Director such instruction in this field as may be given by mail. Many

BIG PYTHIAN DRIVE CLOSING IN A BLAZE OF GLORY. INVESTIGATING COMMITTEE OVERWHELMED, PHYSICIANS SWAMPED AND COMMITTEE ON APPLICATIONS BEWILDERED.

History of Fraternal Societies does not record any instance where men, real men, good citizens, and the thrifty element of the city ever made such a demonstration as was evidenced during the closing hours of the BIG PYTHIAN DRIVE in Dallas, Monday night, October 31, 1921.

Men of every description with determination upon their countenances were pushing, clamoring and pleading to be given the privilege of applying for membership in the greatest fraternal order, in the greatest state, in the greatest country on earth; they were possessed of a spirit which would not down and each and every one of them were more than anxious to become a member of the brave and chivalrous Knights.

The fact that the committee had advertised "IT'S IN DALLAS" What? The Home Office of the Grand Lodge, Colored Knights of Pythias of the Grand Jurisdiction of the States of Texas and that the Contribution of the Grand Lodge in the Way of Civic Improvement Warranted Every Forward and Progressive Man Becoming a Knight of Pythias, served its purpose and TWO THOUSAND FOUR HUNDRED AND THREE THIRTEEN, who were not members of the Order, responded to the call and by their response showed their appreciation for what is really worthy.

The result of the drive is as follows:
Initiated and re-initiated.....1,187
Examined and not initiated or re-initiated.....96
Applications on file not acted upon.....62
Total.....1,345

So, therefore, from this expenditure of public funds, for Negroes are denied admission to this hospital, a condition that has obtained since the first few months after the hospital was opened for patients. There is no place now provided anywhere in this city or county to take care of indigent Negro residents suffering with this dreaded disease. They are left to their own resources and in most cases live in shacks under the worst sanitary and hygienic conditions, contaminating other members of their families and imperiling the health of the community.

The vital statistics of the City of Dallas show that the Negro race above all others, stands much in need of such an institution as Woodlawn hospital. In this connection we respectfully invite your attention to the comparative statement of morbidity and mortality of the races in Dallas for the year 1920, hereto attached. It is shown that the morbidity of whites during the year, due to tuberculosis, as reported to the Health Department, was 234, and of Negroes 144. Placing the white population of Dallas at 135,000 and the Negro population at 25,000. It is seen that in each 1,000 whites there were only 1.77 suffering with tuberculosis while in each 1,000 Negroes there were 5.75 suffering with the disease. The white death rate from this disease is shown to be for the year '79 (less than one) per 1,000, while the death rate for Negroes from said disease during same time was 1.8 per 1,000. It is seen that the Negro death rate from tuberculosis in Dallas is more than twice as large as that of the whites, while the Negro population is about seven times less than the white. We cite these figures to show our race above all others in Dallas needs such facilities as are provided at Woodlawn hospital, at the public expense for indigent tuberculous patients.

White people are yearly reducing their death rate from tuberculosis and games were the principle amusement. The spooks were given a red bottle of soda water and an all day lolly-pop with which to make themselves happy until next Halloween.

NOTED ARTIST WILL APPEAR IN DALLAS.

Word has just been received that Madame Florence Cole Talbert, Coloratura Soprano, will appear in Dallas, Tuesday evening, November 22nd at New Hope Baptist church. Mrs. Talbert, one of the foremost singers of the race, comes under the auspices of the Patrons League of New Hope church of which Dr. R. T. Hamilton is president.

The coming of Mrs. Talbert will mark the beginning of a series of appearances of the most famous artists among us under the direction of the League.

SPOOKS PROGRESSIVE FROLIC.

Schedule:
At 8:30 p. m., 3305 Holmes St., where Mrs. Runnels served sandwiches and Halloween candies.
At 9:15 p. m., Mrs. Chas. Pile, quest on Flora street. Here hot coffee was served. Our number increased by six.

ASK SPACE FOR NEGRO PATIENTS IN TUBERCULAR HOSPITAL.

Welfare Board Presents Petition to County Board Asking that Provision be Made for Negro Patients.

The Colored Welfare Board has resumed its efforts to obtain suitable accommodations for the Negro tubercular patients of the city and county.

On last Thursday it presented a petition to the County Board asking that provision be made in Woodlawn Hospital, recently erected and supported by public funds.

The petition has been endorsed by the City Health Department and the White Welfare Board and the indications are that its presentation will pave the way for definite action in behalf of Negro tubercular patients for whom there is at present no accommodation.

The petition is as follows:
To the Board of Commissioners of Dallas County, Texas,
Gentlemen:

We, the undersigned citizens and taxpayers of the city and county of Dallas do hereby petition your Honorable Board to make arrangements to admit indigent Negro tubercular patients to Woodlawn Hospital, and to employ Negro trained nurses to attend same.

This hospital was erected, as you know, in 1913, by the City and County jointly, at a cost of \$42,462.15 exclusive of the ground, and since that time improvements have been made, we understand, at a cost of more than \$100,000.00. It is for the care and treatment of indigent tubercular patients who are bona fide residents of the City and County of Dallas, and its cost of maintenance is more than \$1,500.00 per month. Our race constituting about one-seventh of the population of the city and about one-eighth of the population of the County, at present derive no benefit from this expenditure of public funds, for Negroes are denied admission to this hospital, a condition that has obtained since the first few months after the hospital was opened for patients. There is no place now provided anywhere in this city or county to take care of indigent Negro residents suffering with this dreaded disease. They are left to their own resources and in most cases live in shacks under the worst sanitary and hygienic conditions, contaminating other members of their families and imperiling the health of the community.

The vital statistics of the City of Dallas show that the Negro race above all others, stands much in need of such an institution as Woodlawn hospital. In this connection we respectfully invite your attention to the comparative statement of morbidity and mortality of the races in Dallas for the year 1920, hereto attached. It is shown that the morbidity of whites during the year, due to tuberculosis, as reported to the Health Department, was 234, and of Negroes 144. Placing the white population of Dallas at 135,000 and the Negro population at 25,000. It is seen that in each 1,000 whites there were only 1.77 suffering with tuberculosis while in each 1,000 Negroes there were 5.75 suffering with the disease. The white death rate from this disease is shown to be for the year '79 (less than one) per 1,000, while the death rate for Negroes from said disease during same time was 1.8 per 1,000. It is seen that the Negro death rate from tuberculosis in Dallas is more than twice as large as that of the whites, while the Negro population is about seven times less than the white. We cite these figures to show our race above all others in Dallas needs such facilities as are provided at Woodlawn hospital, at the public expense for indigent tuberculous patients.

White people are yearly reducing their death rate from tuberculosis

by better sanitation, better housing for the poor and through the instrumentality of sanitariums such as Woodlawn. They can further reduce their death rate from this disease by helping the Negro to reduce his, because by doing so they will be removing one of the sources from which member of their own race may become infected. This becomes at once apparent when we recall the close contact in which the two races come in their business relations. If the cook, the nurse, the maid, the chauffeur, the porter, the laundress are from homes in which this or other communicable diseases exist, the employer is liable to infection from them and, as every doctor knows, are not infrequently contaminated from this source. So, as a matter of self protection alone it would be to the advantage of the white people to assist the Negro in this matter, as prayed for in this petition.

We understand that when Woodlawn Hospital was opened for patients in 1913, Negroes were admitted during the first few months. We do not know why they were subsequently debarred. We have been unofficially informed that it was a question of nurse; that it was repugnant to white nurses and attendants to give to Negro patients the close care and attention they demand. We readily understand the position taken by the nurses and have no complaint or criticism to make on that score. But in order to overcome this obstacle as well as for the best interest of all concerned we, respectfully ask that Colored nurses and attendants who are available be employed to care for Negro patients, should this petition be granted.

During the administration of Honorable Joe E. Lawther, the Negro Welfare Board presented a petition similar to this, to the Board of Commissioners of Dallas and the County Commissioners. The petition was endorsed by the City Board of Health and was favorably commented upon by the daily papers. After some delay due to the war, it was finally agreed by the City and County Commissioners to build a new modern unit at Woodlawn for whites and to use the old buildings vacated by the whites for Negro patients. The new building for whites has been completed, equipped and is now occupied. An still, for some reason no provision has been made to take care of Negro patients. In fact we have been informed, the old buildings are to be torn down.

Quite recently we saw it stated in the papers that the City of Houston and County of Harris are now building a unit at their tubercular hospital for colored patients. We feel that the great City and County of Dallas can find a way to do as much for our group here, as especially since to do so would benefit the entire community.

Respectfully submitted,

(COPY)
Dallas, Texas, Sept. 7, 1921.
Dr. R. T. Hamilton,
2547 1/2 Elm street,
Dallas, Texas.

Complying with your request of September 7, I am listing below the Tuberculosis Morbidity and Mortality, for the City of Dallas, during the calendar year, 1920:

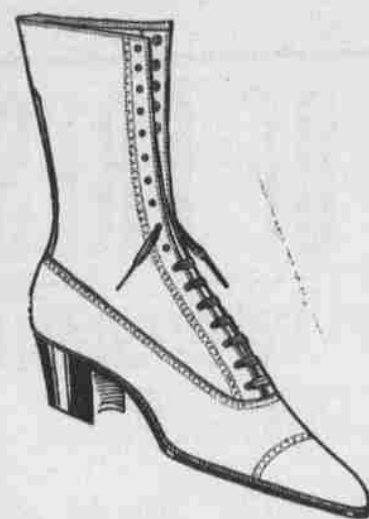

| | | Morbidity. | | | |
|-------|-----|------------|-------|---------|--|
| | | White | Negro | Mexican | |
| Total | 234 | 144 | 38 | 416 | |
| | | White | Negro | | |
| Total | 107 | 46 | 30 | 163 | |

Yours truly,
(Signed)
BIRDIE SMITH,
City Registrar of Vital Statistics.

and games were the principle amusement. The spooks were given a red bottle of soda water and an all day lolly-pop with which to make themselves happy until next Halloween.

A short business session was held at the home of Mrs. Neal White Tuesday night wherein officers were elected. Every one being pleased with the officers of the past six months all were reelected with the exception of two, these two having to be elected on account of recent vacancies.

(By A. N. P.)

Manilla, Philippine Islands, Nov. 3.—In the event of war on the Pacific or elsewhere involving the United States, Great Britain without question would support the United States, was the personal opinion of Lord Northcliffe, expressed in an interview here Saturday with Japanese newspapermen, who came to talk with him on the question of the Japanese Treaty of Alliance with Great Britain.

Replying to direct questions, Lord Northcliffe said it was his belief that should such a clash occur the whole family of British nations would stand beside America, just as the American people had stood beside the British in the still smoldering conflagration of Europe. He added that it seemed inconceivable that any contingency might arise to menace seriously "the inviolable but impragable bonds that make the English speaking peoples one in the ultimate and supreme issues of humanity."
